Supreme Metal drop-ins include: ice bins, with or without cold plates, water stations and hand sinks alone or in combination units. Ice bins have 1" diameter drains & 1/2" diameter drains on cold plate units. Ice bin units are supplied with a hinged stainless steel cover and are manufactured with a rubber thermal breaker to reduce condensation. Hand sink models are supplied with 3 1/2" basket drains, and a 4" deck faucet with 6" spout. It offers Hot & Cold with 1/2" I.P.S. The water filler has a 1" diameter drain in the drip pan and the faucet has a cold connection with 1/2" I.P.S.

Serving stations can be cut out to accept all Drop-ins. Specify the location: left, center or right, and add the cut out charge that applies.

All drop-in ice bins are foam in place insulated.

Electric Hot Food Tables

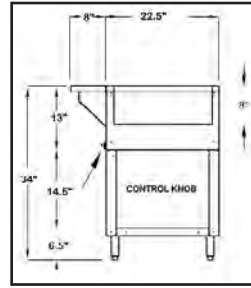

HOT FOOD TABLES

FEATURES:

- 6' electrical cord with plug
- Infinite control knobs
- Indicator lights
- Single phase wiring
- Stainless steel undershelf.
- Fiberglass insulation between each compartment
- 1" thick poly cutting board (8" wide)
- New 1000 WATT elements standard on 240V units
- For portable units add **\$292 list** and prefix "P" to the model number.
- 5" swivel casters, with two brakes on portable units
- Universal mount push handle (right/left), on portable units

Sectional View of Hot Food Table

See page 17 for 3 phase wiring and NEMA plug info.

Parts & Warranty Info

Warranty Info

SupremeMetal, Inc. Limited Warranty (FOR GAS AND ELECTRIC UNITS ONLY)

SupremeMetal Inc. warrants that all units manufactured will be free from defects at the time of shipment. Warranty is valid for 1 year from the date of installation or no more than 2 years from date of shipment. This warranty applies to manufactured or component parts. Contact the SupremeMetal Customer Service Department for a listing of authorized service agencies. SupremeMetal Inc. is not responsible for damage, or business loss of any kind resulting from defective unit or installation of replacement unit.

TERMS AND CONDITIONS OF WARRANTY

1. To original user only. Bill of Sale must be submitted with all claims.
2. Claims must be made to manufacturer within 30 days of discovery of defect.
3. Manufacturer may provide service by authorized agency for 90 days after installation of unit free of charge.
4. Defective units, if necessary, will be freight prepaid by shipper for inspection.
5. Replacement units, if necessary will be freight prepaid by manufacturer.

6. This warranty may be rescinded by manufacturer without prior notice.
7. Any claim under this warranty must be made in writing to SupremeMetal, Inc.

WARRANTY VOID IF:

1. Unit has been transferred from the original user.
2. Unit is serviced by person other than an authorized agency, or not in compliance with local code.
3. Unit is altered or modified in any way.
4. Unit has any accessory parts affixed which are not recommended or installed by manufacturer.
5. Unit is installed outside the continental United States.

Modular Bar Die System

Prestige

FEATURES:

- Die Wall can be sealed to the floor, eliminating moisture in the bar structure.
- Recessed equipment outlets, permitting equipment to sit flush against the bar die wall.
- GFI outlets set in place and ready to be wired by on-site electrician meeting local codes.
- Stainless Steel panels supplied where equipment by others is located.
- Complete steel construction will not rot.
- Precise engineering to ensure an exact fit.
- Enclosed casing for beer towers.
- Soda gun outlets supplied where specified.
- Cantilever system eliminates the need for legs, simplifying cleanup!
- Predefined space for plumbing and drain lines supplied in bar die structure.

Modular Bar Die offers the customer the option of installing a cantilever system, utilizing the Prestige series of quality underbar. Each section of Prestige equipment is attached to the bar die wall eliminating the need for legs. All of the electrical, plumbing and soda lines are installed out of sight in the bar die wall.

The bar is assembled and divided into sections for shipment. The crated sections will arrive on the job site ready for installation. Simply set the sections in place, level, then secure the sections together and attach to the floor. It's that simple. Imagine the installation, labor costs and time you will save.

The structure on the bartender's side is completely fabricated of stainless steel. The actual bar die is fabricated of heavy gauge galvanized steel with cutouts for plumbing and beer lines. Junction boxes are located on each section.

Once the bar die is installed, the millwork can be set in place. The outside panels, located in a channel under the bar top, slide out. The panels attach at the bottom using simple clips on the provided vertical hat channels. If there is ever a plumbing or electrical problem, access to the frame is a snap!

1) Uncrate and set into place.

2) Bolt together with self tapping screws.

3) Level with shims.

4) Secure to floor.

5) Silicone seams.

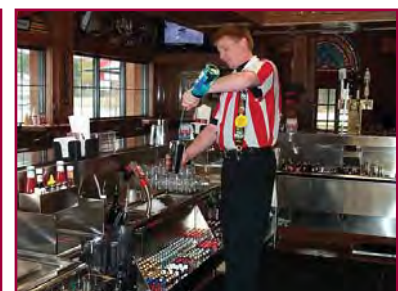

6) Install plumbing, electrical and soda lines.

These are just some of the Modular Bar Die projects completed!

Ice Bin Section

Cabinet Section

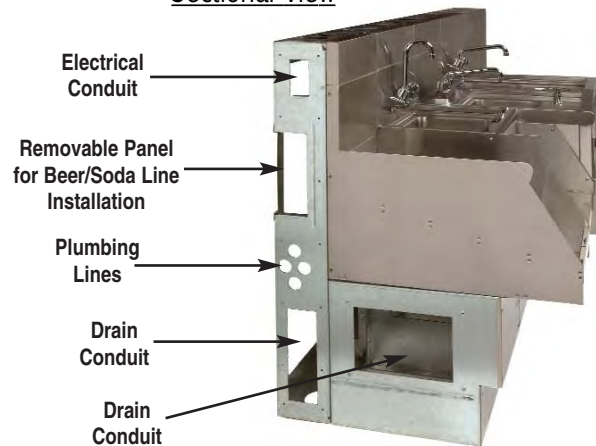

- Structure: 16 gauge galvanized steel equipment support structure. 20 gauge series #302 stainless steel interior on the bartender's side.

- Standard Prestige equipment attaches directly to the bar die structure. The equipment is available in 19" & 24" series.

- Electrical junction boxes are included in each section of the bar sections. This will be determined by the pre-fabrication layout drawings that are provided on every job.

Sectional View

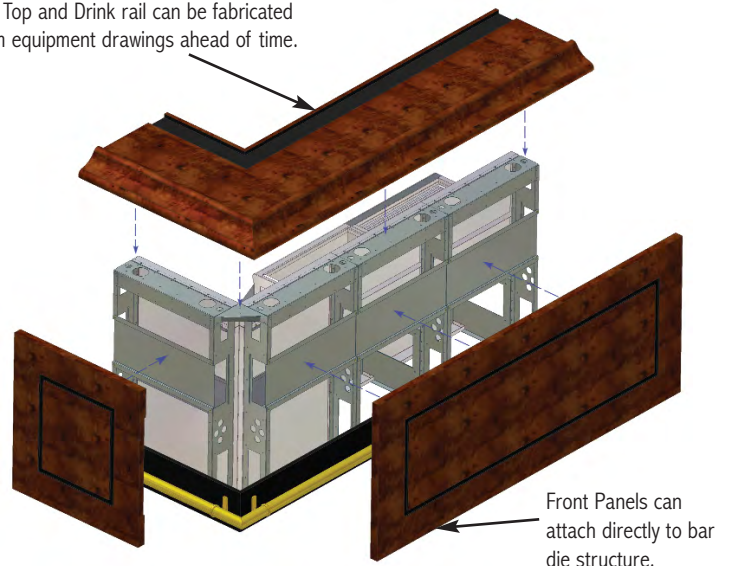

Millwork Assembly Suggestions (not supplied by SupremeMetal)

Shown here are some examples of Millwork styles that can be used. These pieces can be attached directly to the bar structure or simple clips can be attached to the front panel that slide onto a horizontal anchor.

These pieces can be pre-fabricated and installed immediately after the bar installation is complete. The look of the bar is now beautifully coordinated with the decor.

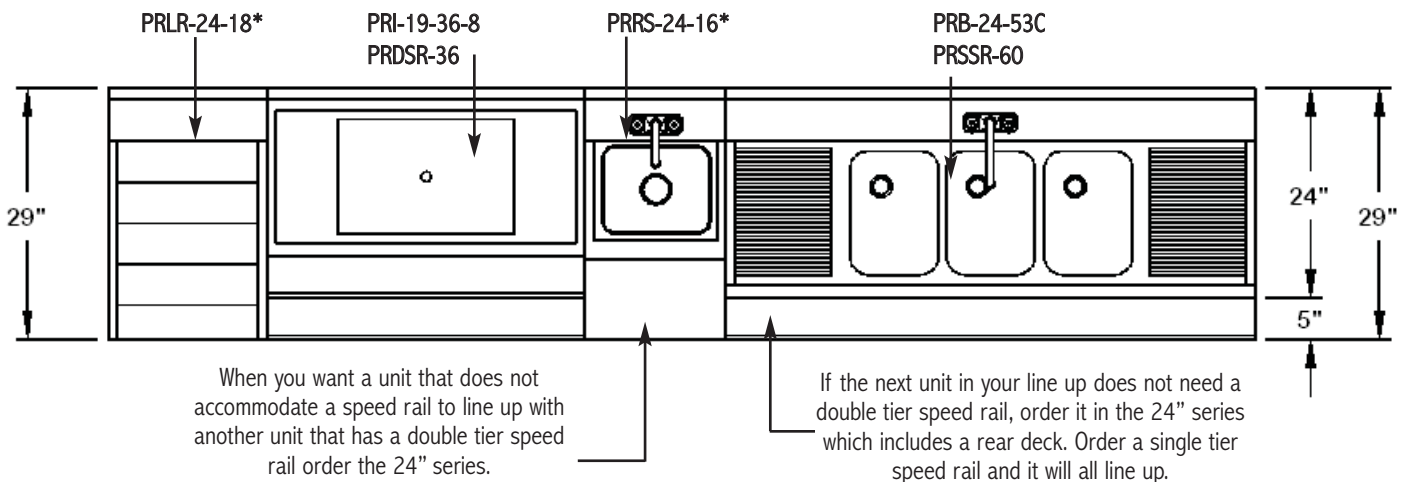

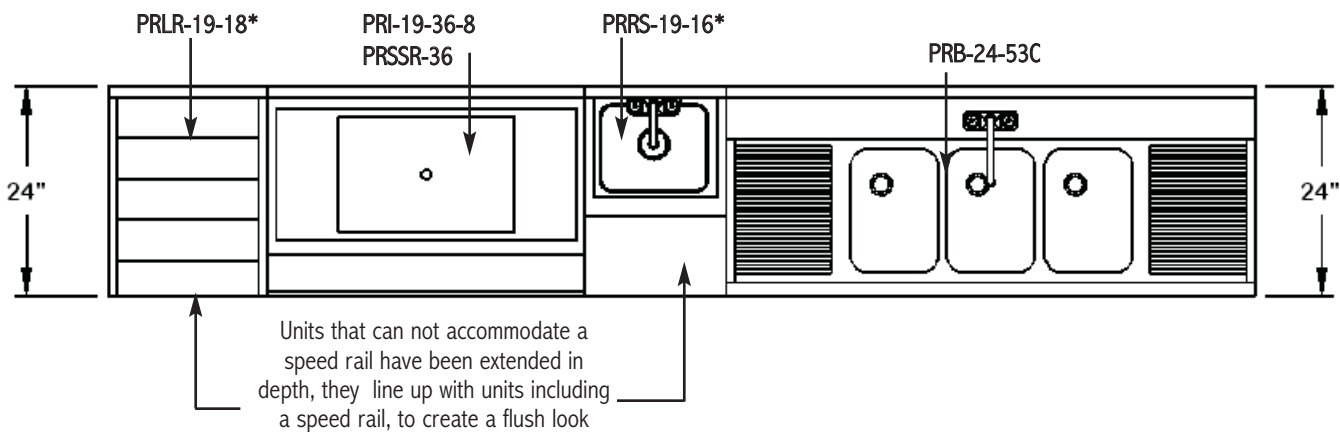

Bar Top and Drink rail can be fabricated from equipment drawings ahead of time.

SupremeMetal leads the way with a quality driven line of underbar products. We will leave our competition behind with our superior craftsmanship.

The basic engineering of our Prestige line is easily explained. This series comes in two widths, 19" series and the 24" series. The difference between the two is 5", in width which is equal to either a rear deck or a single speed rail. There are certain pieces that do not allow for a speed rail. These units already have the extra 5" included. The units that already include the extra 5" in the front are marked throughout the *Prestige* section of this price list with an asterisk (*) next to the model number.

For example:

Refer to spec sheets for more detailed information.

Prestige

Prestige Bar Sinks

The Prestige series is constructed for heavy duty use, yet it maintains an appealing look. The bar sinks are constructed from stainless steel from top to bottom.

FEATURES:

Standard Features Include:

- 10 x 14 x 10 sink bowls with 1 1/2" I.P.S. drains
- Overflow pipes are included for each sink bowl
- Continuous ribbed corrugation on drainboard sections
- All units are undercoated for sound deadening.
- Mirror finish 18 gauge molding
- 7" high backsplash
- Stainless steel drains
- Heavy Duty faucets included

Prestige Ice Bins

Prestige

PRI-19-24
W/ PRSSR-24

Prestige Ice bins without cold plates are constructed out of stainless steel from top to bottom.

Standard features: mirrored front molding, foam insulation, black polyethylene thermal breaker marine edge, and 2ea. 3-pak bottle storage racks. Units are supplied with 1" I.P.S. drains. The legs are heavy gauge stainless steel with 1-5/8" O.D. and stainless steel bullet feet.

On the 24" series we have removed the rear deck and made the ice bin larger for more ice capacity.

Prestige Ice bins with 8 circuit cold plates are stainless steel construction top to bottom. All units offer as standard features: mirrored front molding, foam insulation, black polyethylene thermal breaker marine edge, and 2ea. 3-pak bottle storage racks.

These units are supplied with stainless steel 1/2" I.P.S. drains that are located in the cold plate. The legs are heavy gauge stainless steel with 1-5/8" O.D. and stainless bullet feet.

A combination unit consists of a large bin ranging in size from 24", 30", & 36" and a smaller ice bin that is always 12" wide. The R or L denote which side the large ice bin is located. The smaller ice chest can be used to ice down wine or specialty chilled products. This ensures the bartender clean ice for drinks.

All service units supplied with blender shelf and hidden duplex outlet. Each unit is undercoated to deaden the sound of clinking glasses and liquor bottles. These service units cannot accommodate a speedrail, the 19" series is actually 24" front to back and the 24" series is 29" front to back. This will allow these units to line up with standard units and speedrails to achieve a *flush* look.

Does your customer have a unique shaped bar? Do you have gaps in your layout in between equipment? Our full line of Prestige fillers will solve these problems. There are several different sizes offered to help you create a good workspace flow. The fillers are measured by the degree of the angle in the bar you are trying to fill. The 90° fillers are designed for 90° turns and corners in the bar layout. These are the only fillers supplied with a leg channel for additional support. Fillers are installed by mounting them to the adjacent pieces of equipment they fit between. All fillers are offered with a flat top and some models offer corrugated tops with a drain. For custom fillers please consult the factory for pricing and availability.

*Does your customer have an odd shaped bar?
Does he need to use every inch available for workspace?*

The Slimline and Challenger filler units are just the thing to complete the line up. These units come in both series so that they will line up neatly. We offer a large variety of angles from 30° through a full 90° corner with a leg assembly. These units are designed to be installed in the field by connecting them to the adjoining equipment creating a seamless underbar layout.

These units come standard with 4" high backsplash, pre-drilled holes on the sides for easy installation. The full corner units come with a single leg set for extra sturdiness.

Features of the SRK series Speed Rails:

- Available in 1' to 8' lengths
- Keyhole installation
- Raised one-piece front moulding for strength and durability
- Add-on to Slimline & Challenger series to attain "that custom look"
- Optional add-on second tier (removable)

SRK-2

SRKD-2

The SRK series is a Full Length Heavy Duty speed rail that is available in 1' to 8' lengths. SRK's can be modified in length or made wider to accommodate 1/2 gallon bottles (see pricing below). To have units predrilled for ease of installation of SRK's (see pricing below).

Add \$37 per unit to make an odd size SRK- supply actual overall length

Add \$60 per unit to make an SRK wider to accommodate 1/2 gallon bottles

Add \$63 per unit to have units predrilled at factory for ease of SRK installation (include prefix **-PD** to the model #)

Hang-On Second Tier

The speed rail shown is a Hang-On style SRK. This rail is designed to hang on the first tier of any SRK (not recommended for use with any other manufacturers speed rail) To handle increasing liquor sales you can double your liquor storage. Hang-On can be removed during the off season, allowing the bartender more room. The end result is flexibility with the durability of an SRK.

Warranty Information

Terms and Conditions (SHORT FORM)

All previous prices and discounts are hereby withdrawn.

- All prices are F.O.B. factory.
- 1% discount-10 days: net- 30 days.
- All prices, specifications and discounts subject to change without notice. Prices listed herein do not include Federal Excise, Municipal, or other use tax.
- Not responsible for any damage while in the hands of a carrier. (For any damage and loss while in transit, file claim against carrier promptly.)
- Merchandise shipped open account to those furnishing satisfactory credit references.
- Quotations, unless otherwise stated, are for 30 day acceptance.
- Returns:
 - A 35% to 40% handling charge will be applied to all authorized returns.
 - A 40% to 45% handling charge will apply to all unauthorized returns.
 - Actual restocking charges to be determined upon return and inspection of merchandise.
- Limited 5-year Sink Bowl Warranty for all units containing drawn sink bowls \$6.00 list.
- Standard one year manufacturers warranty for all other units.
- Orders for special items are not subject to cancellation without our prior written consent.
- Our permission must be obtained before defective merchandise is returned. Incoming freight or express charges may be collected and exchanges will be shipped prepaid.
- On return shipments that we sanction, where orders have been correctly filled out and are not defective, the incoming freight or express freight charges must be prepaid. Credit will then be issued, less a reasonable handling charge and less whatever expense is necessary to put goods in saleable condition.
- We are not responsible for delays in delivery which are beyond our control such as fires, strikes, delays in transportation or any contingencies of similar character.
- All orders subject to acceptance at our office.
- Possession of price list does not constitute an offer to sell.

General Shipping Information

1. We reserve the right to ship via carriers which in our opinion are the most efficient. We will follow customer routing if possible.
2. Unless specified, all orders shipped will be "Freight Collect".
3. All "Drop Shipments" will be shipped "Prepaid & Bill".

PREPAY & ADD FREIGHT CHARGES

- Estimated freight charges added to an invoice will include a nominal administrative charge per freight bill.

SupremeMetal 5 Year Limited Sink Bowl Warranty

Manufacturer warrants that the DEEP DRAWN sink bowls of this unit when used for normal commercial purposes shall be free from leaks resulting from defective material or workmanship only in accordance with the following terms and conditions:

1. To original user only. Bill of Sale must be submitted with all claims.
2. Claims made to manufacturer within 30 days of discovery of defect.
3. Subject to manufacturer's inspection.
4. Manufacturer may repair or replace unit free of charge.
5. Replacement will be current compatible unit, but dimensions may vary.
6. Defective units, if necessary, will be freight prepaid by shipper for inspection. Replacement units, if necessary will be freight prepaid by manufacturer.
7. MANUFACTURER'S LIABILITY LIMITED TO DEEP DRAWN SINK BOWL LEAKAGE ONLY.
8. MANUFACTURER NOT RESPONSIBLE FOR DAMAGE, OR BUSINESS LOSS OF ANY KIND RESULTING FROM DEFECT IN THE UNIT, OR FOR ANY CHARGES RELATED TO REMOVAL OF DEFECTIVE UNIT OR INSTALLATION OF REPLACEMENT UNIT.
9. Only catalog production units are covered in this warranty. Warranty excludes custom built equipment or DRAWN bowls modified for heating devices.
10. WARRANTY IS VALID FOR 5 YEARS FROM DATE OF SALE.

GENERAL NOTE: Warranty Charge will appear on all invoices for seamless drawn sinks at \$6.00 list per unit. If warranty is declined unit will not be considered for warranty work. Under no circumstances will unit be warranteed if Limited Bowl Warranty has been deducted or has not been paid on original invoice..

WARRANTY VOID IF:

1. Unit has been transferred from the original user.
2. Unit installed by person other than a licensed plumber or not in compliance with local code.
3. Unit is altered or modified in any way.
4. Unit has any accessories parts affixed to units which are not recommended or installed by manufacturer.
5. Unit is installed outside the continental United States.
6. USE OF CHEMICALS OR DETERGENTS NOT IN COMPLIANCE WITH THE MANUFACTURER'S DIRECTIONS OR NOT RECOMMENDED FOR USE ON STAINLESS STEEL (This includes CHLORINE or any CHLORINE derivative products)
7. This warranty may be rescinded by manufacturer without prior notice.
8. This warranty is the exclusive warranty provided by the manufacturer and is in lieu of all other warranties expressed or implied, including the warranty or merchantability and fitness for a particular purpose. Any claim under this warranty must be made in writing to SupremeMetal.

SupremeMetal is constantly engaged in a program of improving our products. Therefore, we reserve the right to change our specifications without prior notice.
